

FEATURING A 52" WALL

THE CALEDONIA

presented by:

the story...

The Caledonia is named after Caledonia Cascade located in the Tallulah Gorge, Georgia. At 600 feet, featuring three individual drops, and a single drop exceeding 260 feet, the Caledonia Cascade is a natural attraction that draws families from all over the United States to view it's awe inspiring beauty.

Continuing the tradition of being a complete family draw, the Caledonia Aboveground Pool from Blue Cascade features unmatched beauty. Each component is engineered to exacting standards and the pool is assembled using a patented connection system. The Resin frame and rails are made with the strongest and most resistant materials available in aboveground pools. As a focal point in your yard, the Caledonia will be the envy of the neighborhood. Every Caledonia pool is produced in North America and features a Vinyl Works deluxe liner, also manufactured in North America.
