## UPDATE

### New Jersey Restrictions on Non-Essential Construction

Governor Murphy signed [Executive Order 122](#) on April 8 which ordered all “non-essential” construction to cease by **Friday, April 10 at 8 pm**.

Under the order and the guidance provided, essential construction includes:

- Projects already underway at a single-family home with a construction crew of 5 or fewer;
- Any work to secure and protect a non-essential construction project for its suspension;
- Any emergency repairs necessary for the health and safety of residents.

On first reading, it appears that current and ongoing pool construction projects, provided they meet criteria above on crew size and follow the [revised workplace guidance](#), could continue.

This Executive Order does not impact the industry's ability to provide pool and spa maintenance as long as the revised workplace guidance is followed.

NESPA will continue to seek guidance as necessary from our legal counsel and Government

Affairs professionals and update the industry if anything changes.
