

March 23, 2020

Dear Partners,

As the situation regarding COVID-19 continues to evolve rapidly, the Quebec City government has just announced a complete closure of all businesses deemed non-essential. This immediate closure will continue until at least April 13, 2020.

Despite all the preventive measures taken by Trevi Fabrication in order to maintain our operations, we are obliged to cease all manufacturing and delivery activities immediately. We are aware that, for many of you, the pool season is in full swing and that this interruption will affect your operations and we are truly sorry. Please be assured that we will be ready to restart operations quickly as soon as permission is granted.

Thanking you for your trust and wishing you to stay healthy and safe with your loved ones.

Best Regards

Jean-François Racine  
Operations Director
