

FEATURING A 52" WALL

THE NIAGARA

presented by:

the story...

The Niagara Falls are voluminous waterfalls on the Niagara River, straddling the international border between the twin cities of Niagara Falls, Ontario, and Niagara Falls, New York. It is divided into the Horseshoe Falls, in Canada and the American Falls, in the US. At 3,950 feet wide, it's far from the largest, but it is the falls with the largest volume of water traveling through it. Undoubtedly the best known waterfall on the planet. It receives somewhere between 14 and 20 million visitors annually.

The Niagara is the best aboveground pool on the market. It offers unparalleled stability thanks to its exclusive Secure-lock bottom track. The Niagara has unprecedented beauty that is matched with a 9" wide, high quality resin top seat and reinforced uprights that add superior robustness and a touch of class. Every Niagara is produced in North America and features a Vinyl Works deluxe pool liner, also manufactured in North America.
