

PRECISION

Pools

Exactly where you want to be

It's exactly where you want to be!

Your Pool

The Precision Pool uses patented techniques, leading **non-corrosive** materials and the latest technologies to create the most advanced pool designs available.

The Precision Pool straight walls are made of virgin high impact polystyrene with a total reinforcing network of ribbed supports making it the strongest in the industry!

The polypropylene flex wall allows the panel to be shaped to any inside or outside radius curve, creating the ability to design new pool shapes. Engineered for strength, the flex wall features a 4" top and bottom flange with vertical supports throughout. Double resin strapping secures the panel to the desired radius, while maintaining a true curve and reinforcing support.

**Introducing the New Benchmark
in premium pool interior finishes**

This material is custom-formulated to match the strength and performance of heavier-gauge liners while maintaining the flexibility and precise fit found in lighter-weight options.

Your Interior Finishes™

Soft to the touch and alluring to the eye, our beautiful interior pool finishes are made of the finest materials and resistant to ultraviolet rays and bacterial growth. They are also far easier to take care of than other pool surfaces, which means less time on maintenance and more time enjoying your pool.

We have invested in state-of-the-art manufacturing equipment and combined it with time tested sealing methods. This allows us to flawlessly bind two pieces of material together leaving all seams almost undetectable, strong and water tight.

Neptune Robotic Cleaners

Spend more time enjoying your pool and let your Neptune robotic cleaner do all the work for you. They clean everywhere keeping your pool surfaces spotless.

Trident Rechargeable Handheld Vacuums

Our cordless handheld vacuums are rechargeable, lightweight and easy to operate, but don't be fooled! The powerful motor makes debris removal a breeze!

Your Entry System

Precision Pools feature the most aesthetically pleasing entry systems on the market, with a variety of options, including step and bench combinations, cuddle coves, sun decks, and much more.

Make your life easier with functional Nexus Polymer built-in stairs, sun decks, benches, and coves in standard or custom shapes and sizes!

With more patents than any other step on the market, our thermoformed steps are designed for maximum area and comfort.

Precision Pools offer Whitewave poolside and spillover spas in White, Blue Granite, and Gray Granite – a therapeutic alternative to swimming!

Your Safety

A Precision Pool will bring you and your family years of enjoyment and relaxation. With any recreational water activity, however, there is always the risk of injury. For the continued enjoyment of your backyard swimming experience, please follow the following safety tips:

1. Read Safety Literature including the Pool & Hot Tub Alliance's brochure, "The Sensible Way to Enjoy Your Inground Swimming Pool."
2. Do Not Allow Diving or Jumping into the pool or running around the pool, and avoid alcohol consumption. The use of diving or sliding equipment can be hazardous. Imperial Pools, Inc. does not recommend the use of these appliances. If used, care should be exercised to use only equipment meeting the recommended safety codes established by the Pool & Hot Tub Alliance.
3. Stay Alert and carefully supervise all the swimmers in your pool – especially small children.
4. Install a Fence to secure your pool from unsupervised and unauthorized use.
5. Use Safety Signs and labels and keep rescue devices nearby, such as life rings or ropes.

Shapes & Sizes

Choose from one of the standard shapes shown here or work with your Authorized Precision Pool dealer to design the pool of your dreams!
